# MARKET CLOSED VERY ACTIVE

And Feverish But With Net Losses all Through the List.

THE SPECULATIVE EXCITEMENT

Was Increased by the Withholding of Bank Statement Until Ten Minntes Before the Close-Money Market Easy. .

NEW YORK. Nov. 4.—Since the surphis reserves of the New York banks fell to about a quarter of a million dollars in mid-September the professional traders in stocks have looked for a dencit in the required cash reserves of the banks almost every week. The surplus shown today was, therefore, not a surprise. The week's events made the stock market pecudiarly vulnerable in spots, and the stock in prices of a few stocks gave an appearance of demoralization to the market Leather especially, which touched 40 at the opening and was above 20 when the bank statement appeared, shimped suddenly to 2% the breaks between transactions reaching as high as 3 points. Marginal accounts in this specialty were wiped out right and left, and then the price was bid up again to 20, at which it closed. Sugar and Brooklyn Transit were also losers to the extent of over 2 points. A number of other prominent industrials lost between 1 and 2 points, but the general list reacted cally a fraction. There were some violent recoverses from the low level, and the closing was feveral and greatly excited at het losses all through the list. The speculative excitament was increased by the fact that the bank statement was withheid until ten minutes before the close of the trading. Efforts to close accounts in this shown by the statement is somewhat greater than was expected, which is doubtless bronght over from last week's condition by the trivial contraction in leans of less than a NEW YORK, Nov. 4 .- Since the sur-

at least temporarily tighter and at higher rates, but this does not hinder tobacco trading.

Nearly all brights sold up to date have been either for export trade or the cigarette and smoking trade, and as the combine sets prices and controls by its large purchases the market on such tobaccos, there is very little fluctuation in values.

The British markets heavily stocked with bright leaf tobacco and strips, and manufacturers on the other side are taking their time about buying, so it will be a long time before shippers will be able to close out their last fear's stocks.

The reports of a fine ripe dark Virginia crop are confirmed by samples and some sales. Opening prices will be rather easy, especially since the exported darks to England have not found quick sales, or any great encouragement to higher prices, even for the better grades.
